

4th Grade: Week 2 Packet

Included in the Packet:

- 4th Grade Fall Math Common Core Assessment: This assessment includes skills students should have by the end of 4th grade. We do not expect students to know all these skills and they should only do the problems they know how to do. They will retake this assessment again at the end of the year to see their growth.
 - Please do not help your student with this assessment, teachers will direct students through Google Classroom on when they should complete this assessment during week 2 of remote learning.
- Morrison-McCall Spelling Test Form: This is just a form for students to use when given their beginning of the year spelling test. They may also use a blank piece of paper to take the test.
 - Teachers will provide more information of when this test will be given through Google Classroom, again please do not help your student with this assessment.
- Getting To Know You Survey: Used to determine how your student learns best.
 - Teachers will provide more information of when this survey will be done through Google Classroom, some teachers may have an electronic version they will use.
- Grammar Symbol Review Page: Will be used during Grammar/Language lessons, teachers will give further instructions in Google Classroom on when/how to complete.
- Multiplication Table Tool: For use to help with math facts when students are practicing and doing follow-up work. Not to be used with math assessments.

Solve each problem.

1) $\frac{1}{10} \times 9 =$

2)
$$\begin{array}{r} 3,127 \\ \times \quad 3 \\ \hline \end{array}$$

3)
$$\begin{array}{r} 60,005 \\ -16,247 \\ \hline \end{array}$$

4)
$$\begin{array}{r} 9,648 \\ -5,751 \\ \hline \end{array}$$

5)
$$\begin{array}{r} 57 \\ \times 60 \\ \hline \end{array}$$

6)
$$\begin{array}{r} 9,627 \\ + 6,245 \\ \hline \end{array}$$

7) Write as a mixed number.
$$\frac{6}{4} =$$

8) Write as an improper fraction.
$$9 \frac{2}{8} =$$

9) 81 is _____ times as many as 9.

10) $\frac{32}{100} + \frac{3}{10} =$

11) Round 86,334 to the nearest thousand.

12) Is 19 a Prime(P) or a Composite(C) number?

13) 10 times _____ is as close to 48 as you can get, without going over.

14) $\frac{4}{12} \times 4 =$

15) Is 118° an 'acute', 'obtuse', 'right' or 'straight' angle? 16) Order from small to large.

A. 50.27 B. 50.9

C. 50 D. 50.3

17) Reduce as much as possible.

$$\frac{27}{72} = \underline{\quad}$$

18) Use $<$, $>$ or $=$ to compare.

$$\frac{2}{3} \quad \frac{5}{8}$$

19) Write the shaded amount as a fraction of the whole.

20) Which number is a factor of 14, but not a multiple of 2?

A. 3 B. 7

C. 5 D. 4

Name: _____

21) Fill in the blank to make an equivalent fraction.

$$\frac{5}{8} = \frac{\quad}{40}$$

22) Answer as an improper fraction.

$$1\frac{1}{10} + 1\frac{7}{10} =$$

23) Write as an equation with the answer.

24) Find the perimeter and area (in u).

25) Find the value of 'A'.

26)

Popcorn

- A. 1 inch
- B. 3 feet
- C. 7 inches
- D. 1 mile

27)

Notebook Paper

- A. 0.1 ounces
- B. 2 pounds
- C. 10 ounces
- D. 3 ounces

28) The line plot below shows the size (in inches) of several different frog species.

What is the difference in size between the shortest species and longest species of frog?

29)

Paint in a can

- A. 1 Gallon
- B. 0.5 Pint
- C. 1 Cup
- D. 3 Ounces

Name: _____

- 30) Use the visual model to solve.
 $79 \times 73 =$

31) $4 \overline{) 234}$

- 32) Kaleb bought 3 board games at the toy store. If each board game cost \$2.60 and he paid with a twenty dollar bill, how much change should he get back?

- 33) In the number 655 the 5 in the tens place is _____ the value of the 5 in the ones place.

- 34) Write in expanded form: 6,980

- 35) Write in word form: 639,231

- 36) Write as a numeral:

$$50,000 + 2,000 + 500 + 30 + 4$$

- 37) $\frac{5}{10} \times 4 =$

- 38) Luke was painting a picture frame. The frame was 3 inches wide and 10 inches tall. What is the perimeter of the picture frame?
- 39) Write as a numeral:
three thousand, one hundred thirty-two
- 40) A pattern starts with 8. The second number is a 14. The third is a 20. Fourth is a 26 and fifth is 32. If the pattern continues will the 12th number in the pattern be even or odd?
- 41) Larry's Lawn Care had fifty-four customers in the summer and nine in the spring. How many times as many customers did they have in the summer than they had in the spring?
- 42) On her MP3 player, Carol had fifty-one different singers with twelve songs from each singer. How many songs did Carol have total?

- 43) Use the visual model to solve.

$$1 \frac{2}{5} + 3 \frac{2}{5} =$$

- 44) Gwen bought a couple packages of gum at the gas station and ate $\frac{3}{5}$ of a package each week. How much would she have eaten after 6 weeks?
- 45) Debby had saved up eleven quarters and decided to spend them on sodas. If it costs four quarters for each soda from a soda machine, how many more quarters would she need to buy the final soda? $11 \div 4 = 2 \text{ r}3$

- 46) Use the visual model to solve.

$$7 \frac{2}{8} - 1 \frac{6}{8} =$$

- 47) For Halloween, Katie received $3\frac{2}{4}$ pounds of candy in the first hour and another $4\frac{2}{4}$ pounds the second hour. How much candy did she get total? Answer as a mixed number.

- 48) Use the numberline to solve.

- 49) A contractor bought 68 boxes of nails at a price of \$3 per box. Each box contained contained 50 nails. If he distributed the nails to the 5 houses he was building and made sure each house received the same number of nails, how many nails would each house get?

- 50) Find the length (in centimeters).

Correct _____ Grade Status _____ EA Section _____

Getting To Know You Survey

Name _____

Directions:

Fold this paper on the dashed vertical line so that the eight columns on the right are folded back. Then read each statement below and rate it from 0 to 5 according to how well the description fits you (0 = Not at All to 5 = Very True). Next unfold the survey and transfer each number over to the outlined block on the same row. Finally, add the numbers in each column to find the total score for each multiple intelligence area. The highest possible score in each area is 15. What are your top strengths and areas for growth?

Which of the following are true about you?

0-5

		Naturalist	Mathematical - Logical	Verbal - Linguistic	Musical - Rhythmic	Visual - Spatial	Bodily-Kinesthetic	Interpersonal	Intrapersonal
I find myself singing or humming many times during the day.									
I love crossword puzzles and other word games.									
I like spending time by myself.									
Charts, maps, and graphic organizers help me learn.									
I learn best when I can talk over a new idea.									
I enjoy art, photography, or doing craft projects.									
I often listen to music in my free time.									
I get along well with different types of people.									
I often think about my goals and dreams for the future.									
I enjoy studying about the earth, weather, and nature.									
I like learning about animals and taking care of pets.									
I love projects that involve acting or moving.									
Written assignments are usually easy for me.									
I can learn new math ideas easily.									
I play a musical instrument (or would like to).									
I am good at physical activities like sports or dancing.									
I like to play games involving numbers and logical thinking.									
My best way to learn is by doing hands-on activities.									
I love painting, drawing, or designing on the computer.									
I often help others without being asked.									
If given a choice, I'd much rather be outside than inside.									
I love the challenge of solving a difficult math problem.									
Having quiet time to think over ideas is important to me.									
I read for pleasure almost every day.
